

GREENHOUSE HEATING SOLUTIONS

The full line of L.B. White forced air greenhouse heating solutions are manufactured to ensure heat goes into the greenhouse, unlike indirect-fired heaters that lose 20% of heat out of the chimney. L.B. White's Therma Grow™ and Guardian® forced air direct-fired greenhouse heating systems are the new standard for efficient, reliable greenhouse heaters.

Therma Grow™ Greenhouse Heat- Industry-Best 10-Year Warranty

Therma Grow™ greenhouse heaters are advanced, clean-burning, direct fired models that offer 20% better fuel efficiency than traditional greenhouse heaters.

Therma Grow™ greenhouse heaters carry an unheard of 10 year warranty on the heat chamber and case, and have completely enclosed and protected components, making for years of trouble-free heating. The design combines efficiency, advanced performance, and long component life to reduce energy and maintenance costs, and help grow profits. These units can be mounted either inside or outside; giving growers flexibility and the ability to free up grow space.

- 10 YEAR WARRANTY against heat chamber and case corrosion
- Two output sizes, 120,000 Btuh and 220,000 Btuh
- Meet all OSHA emissions requirements for greenhouses.
- Plus model features including 2-stage temperature control and heating and air circulation modes.
- Dependable, fuel efficient hot surface ignition
- Quick response, on-demand heat using Hot Surface Ignition
- Easy integration with building controls
- Only CSA approved certified greenhouse heater

Guardian® Forced Air Heaters

- Range of models from 60,000 to 325,000 Btu/h
- Spark, hot surface or pilot light ignition
- Variable or fixed heat output
- Advanced Service Saver diagnostic feature
- Tri-Shield White or galvanized case finish
- Outdoor installation only

The Guardian's time proven direct-fired design was specifically designed to protect your investment when the weather turns cold. The Therma Grow family of heaters are the cleanest burning direct-fired heater available today, an outdoor mounted Guardian might be a good alternative when growing less sensitive plants.

Tradesman™ Portable Forced Air Gas Heat-

Engineered to deliver reliable, directional heat, L.B. White Tradesman horticultural heaters feature a unique 3-trial ignition system, the industry's heaviest gauge combustion chamber and burner plate, and Self Diagnostic Service Saver models for convenient trouble-shooting.
