- Professional durability for long life
- Lever activated valve
- Ergonomic insulated grip
- Available in an array of bright colors
- Three models: 16", 30" Wand or 36" Hanging Basket Wand
- [Lifetime guarantee to the consumer!](#)

Handi-Reach™ Handle

Handi-Reach Handles are designed to eliminate the stretching and stooping associated with hand watering. Available in 16, 24, 30, 36, and 48-inch lengths, these rugged tools allow you to water hard-to-reach areas with ease. Made in the U.S.A. from extruded aluminum tubing, forged brass hose couplings and a comfort EPDM hand grip. 3/4 male and female hose threads.

Flexibility in Watering

Dramm introduces our new Orange Wide Pattern 1000PL and our Green Narrow Pattern 1000PL. The new 1000PLs have the same soft flow of the popular Red-head but with different pattern widths. Growers requested a variety of widths over the years as they found different uses for the standard 1000PL.

The Red 1000PL is the standard Redhead with a medium pattern.

The Green 1000PL-N is perfect for focused watering where more control is required.

The Orange 1000PL-W throws a wider pattern than the standard Redhead, offering the ability to cover more area with a soft, gentle flow.

ColorStorm™ Professional Hoses

Realizing that the perfect nozzle is only part of the hand watering experience, Dramm is introducing a line of hose designed to equal our watering tools in quality. Dramm ColorStorm-Professional Rubber Hose is made from EPDM rubber for a "crackless" hose cover that is resistant to abrasion and weathering.
