

PERLITE AND VERMICULITE

This lightweight Perlite provides excellent aeration and moisture retention when mixed in with other soil materials. Perlite supports root growth by retaining the moisture, air, and nutrients which it releases as the plants grow.

Available in: *Coarse

4 CF Bags - 33 Bags/Pallet

Perlite Vermiculite Packaging Industries, Inc.
Manufacturers of Consumer & Professional Growing Media and Soil Conditioners

Horticultural perlite is clean, sterile, pH neutral, non-flammable, odorless, nontoxic and neither decays nor shrinks. While horticultural perlite does retain water and food for the growing plants, it is best used for drainage purposes.

Available in: *Coarse *Super Coarse

4 CF Bags - 36 Bags/Pallet
