

SP SPRAYERS

SP0

The SP0 four gallon backpack sprayer comes equipped with the new, patented Triple Function pump - totally unique in today's market. This pump offers incredible spraying pressure, safety from leaks, and the ability to agitate wettable powders all at the same time. Designed for durability, the SP0 is easy to use, simple to maintain, and sells at a price that makes it a great value for your money.

SP1

The convenient, SP1 four gallon sprayer is the most comfortable way possible to handle professional spraying projects. Designed for exceptional safety, the SP1's proven patented diaphragm pump protects you from potential leaks. It's also extremely durable, and capable of two million strokes without leaking (equal to over two years of constant use).

YardTender 189

Our popular YardTenders are state-of-the-art backpack sprayers designed for both professional and home use. Ideal for projects ranging from weed control and fertilizing to wood, stone, and concrete sealing, they can even handle chlorine-based products such as deck and fence cleaners. Plus, a mechanical agitator, which allows the use of wettable powders, comes installed in every unit.

YardTender 10

The SP Systems 1-gallon yard tender compression sprayer allows for a 10-minute continuous spray without re-pumping.

YardTender 20

The YardTender Pump'n'Go™ sprayer, a single pumping session of 40 full strokes provides enough pressure to spray continuously for 10 minutes - enough to completely empty the YardTender 20 with just two pumping sessions.

YardTender 30

The SP Systems 3-gallon yard tender compression sprayer allows for a 10-minute continuous spray without re-pumping. It features a 16-inch brass wand, adjustable brass nozzle with fanning capability, 47-inches of industrial hose, and an extra long pump chamber that can handle up to 40 full strokes per pumping session.

SP20A Acid Sprayer

The SP10A and SP20A Acid Sprayers are the first industrial sprayers expressly designed for acids - using new acid-resistant plastic and rubber compounds, plastic parts, and a PVC wand.
