NEW PRODUCTS & OFFERS

SUSTÅNE ORGANIC FERTILIZER

Suståne is a line of fertilizers and soil builders that combines the many benefits of high quality compost with the performance and precision of a slow release fertilizer. Suståne is the world's leading manufacturer-exporter of organic and natural base slow release nitrogen fertilizers for all green industries. Suståne's products are designed for organic farms and gardens, turf and ornamental plants and native vegetative establishment. There are Suståne products available for all crop fertility, establishment, maintenance, reclamation and soil building programs. Suståne fertilizers are derived from aerobic, concentrated compost – rich in humus, dense in nutrients and biologically active.

SECURE WINTER PRODUCTS

Keep your salt on the rim.
Not in your water, business, home, landscaping or entryways.
Get the fast-working, liquid ice melt that's safe for your family, pets and the environment. No more unsightly residue tracked into your homes and businesses. No more corroded surfaces and metals. No more irritated paws tormenting your pets. No more damaged plants and waterways. With Entry, you can say goodbye to salt and melt ice quickly and safely.

- 100% free of chlorides and urea
- Safe for humans, pets, plant life and waterways
- Works up to 20x faster than granular de-icers
- MUCH lower cost per application than traditional granular products
- Slashes maintenance/cleanup costs caused by chloride and urea products

TESSMAN COMPANY NEW PRODUCTS & OFFERS

SOIL LIFE AF

SoilLife is a fertilizer biocatalyst that enhances fertilizer efficiency and improves the performance of turf and ornamental plants. It is specifically formulated for use with liquid fertilizers, manures and other broadcast applications. SoilLife helps turf and ornamental professionals get more out of their applied liquid fertilizers by increasing nutrient availability and enhancing root growth and function. By converting organic nutrients into inorganic forms, SoilLife makes nutrients more available for plant uptake and utilization, helping to optimize plant performance.

AGRICEN
A Loveland Products Company

www.agricen.com

Key Benefits:
- Increases nutrient availability and uptake
- Enhances nutrient use efficiency
- Promotes better root growth and development
- Reduces turf and ornamental plant stress
- Improves plant performance

Product Features:
- Used at low volumes
- Consistent performance across plant and soil types
- Compatible with most fertilizers, herbicides, fungicides & insecticides
- Shelf stable

TESSMAN COMPANY NEW PRODUCTS & OFFERS

SPRING VALLEY PROFESSIONAL ICE MELTER

Made with Defrost® to melt snow and ice in harsh conditions down to -16°F. Defrost is an organic anti-icing agent that improves the performance of common ice melting ingredients. Derived from fermented and distilled corn, when used alone it has a freezing point of -78°F. When combined with common ice melting ingredients, Defrost increases their effectiveness and reduces chloride use by as much 33-50%, making it safer for pets, children and plants.

- Less waste
- Reduced corrosion
- Environmentally friendly
- Accuflow® Pattern Indicator

Fluazinam 40SC Select™

Fluazinam 40SC Select™ is a broad spectrum, multi-site fungicide to control diseases in turf grasses on golf courses only. The active ingredient, fluazinam, is the only registered fungicide for turf in FRAC group 29. It has no known resistance and as a multi-site contact, it has a very low risk of developing resistance.

Fluazinam 40SC Select™ not only provides superior protection against dollar spot, but also controlf 10 additional turf diseases. It even controls dollar spot that is resistant to other chemistries.

- Unique multi-site contact active ingredient, reduces resistance management
- Perfect tank mix partner with systemics for inside out protection
- Controls dollar spot that is resistant to other chemistries
- Low use rate
