

Horticultural Containers

Simple Savings

T.O. Plastics' Square Vacuum Deep (SVD) and Square Vacuum Traditional (SVT) pots are designed with time, efficiency and quality in mind. We start with 100% recycled resins that we extrude, then form into our high-impact polystyrene pots and carry trays. You can be confident that you are using durable, dependable and environmentally responsible products. Add to that the ease and efficiency of our Press-Fill system and you are sure to save both time and money.

Standard colors for square SVD and SVT vacuum pots are black, green, and terra cotta. Custom co-extruded colors are available upon request. Call for availability and minimum order quantity requirements.

*Carton-pot stack configurations for Press-Fill applications.

Press-Fill made easy.

Simply place a tray, press firmly and lift a fully loaded tray of pots. Repeat the process.

Visit the Horticulture page on our website where you can watch a video demonstration of our Press-Fill system and learn how it can offer you significant labor cost savings over traditional methods of loading and filling your square pots and trays!

Better Results Through Engineering

T.O. Plastics manufactures a large variety of durable propagation trays, sheet pots and liner trays. Our propagation trays are engineered with optimum cell sizes for greater soil capacity and they have community watering channels to prevent dry cells.

Our multi-purpose liner trays and sheet pots are ideal for nursery propagation and landscape groundcovers, and all T.O. Plastics trays are designed to de-nest easily, saving you time and effort!

Propagation Trays	Fit most Standard Open 1020 Flats

The Right Choice

Vacuum formed from polypropylene sheet, our perennial pots and SureRoots® 2 Quart Round Pots are not only durable, they're economical.

Our standard round pot color is black, but custom co-extruded colors are available upon request (colored exterior walls on black interior walls).

Call our Customer Service department to discuss custom color options and minimum order quantity requirements.
