

BioWorks®
How You Grow Matters™

BotaniGard Mycoinsecticide—Wettable Powder or ES

- Controls adult and larval stages of whitefly, thrips, aphids, and more
- Unique mode of action – spores infect directly through the insect’s cuticle
- Compatible with many beneficial insects with a 4-hour REI / 0-day pre-harvest interval

Mycotrol O– Organic Version of BotaniGard ES– OMRI Listed

Cease—Microbial Fungicide and Bactericide

- Proven efficacy against *both* fungal and bacterial pathogens
- No phytotoxicity or residues on plant foliage or flowers
- Safe for beneficial insects and bees. Safe when used with PGR’s
- 4-hour REI / 0-day pre-harvest interval– OMRI listed and Approved

Root Shield– Root Disease Control- Granular or WP

- Biological Fungicide that grows on roots “shielding” them against root damaging fungi
- Releases enzymes that dissolve the cell wall of many fungal pathogens
- Promotes a healthier root system increasing root mass potential
- One application provides up to 12 weeks of protection with 0-hour REI

SuffOil-X - Spray Oil Emulsion Insecticide, Miticide, Fungicide

- Suffocates and kills eggs, larvae, nymphs and adult soft bodied insects and mites
- Controls fungi including powdery mildew with a 4– hour REI and OMRI listing
- Unique formulation stays in suspension better than other oils
- Smaller oil particles provide uniform coverage with less chance of phytotoxicity

MOLT X– Botanical Insecticide/Nemacide– OMRI listed

- Use on ornamental greenhouse, nursery, outdoor food crops and turf grass
- Protects against both foliar and soil-borne pests– compatible with most chemicals and fertilizers
- Effective anti-feedant – insects will virtually stop feeding before they die
- 4-hour REI; 0-day preharvest interval– leaves no residue on plant foliage and flowers
- No phytotoxicity issues on most plants and generally safe on beneficial insects
