

Earthway Products, Inc., started in 1965, is a family owned company based in North Central Indiana. EarthWay® designs, engineers, and manufactures high quality lawn and garden products used by homeowners and professionals alike worldwide. The EarthWay® EV-N-SPRED® brand is recognized as a leader in broadcast spreading, and our products are sold under some of the most recognized names in the fertilizer, seed, and lawn and garden industries. All of our spreaders, sprayers, and seeders are produced at our world headquarters located in Bristol, Indiana.
