

Apple SGL

PERENNIAL RYEGRASS

APPLE SGL

PERENNIAL RYEGRASS

- SALT TOLERANT
- GRAY LEAF SPOT RESISTANCE
- IMPROVED WEAR TOLERANCE
- PATHOGEN RESISTANCE
- DARK GREEN

HEALTHY, HIGH-QUALITY TURF

Apple SGL (*Salt tolerance and Gray Leaf resistance*) is a very unique perennial ryegrass. As with all Mountain View Seeds varieties it is a top-quality performer. It's dark green color and fine leaf texture make it ideal for all turf needs, but it's ability to withstand disease and tolerate salt make it a fit for a greater diversity of environmental conditions. Use **Apple SGL** when affluent water is used for irrigation or when soil salinity levels are higher than normal. **Apple SGL** excels where other's fail. Choose **Apple SGL** to stay healthy all year long.

NTEP DATA

VARIETY	TURF QUALITY N. CENTRAL	GRAY LEAF SPOT RESISTANCE	TURF QUALITY MEAN	SALT TOLERANCE % TURF COVER*	WEAR TOLERANCE

AREAS OF USE

- HIGH-TRAFFIC AND HEAVY WEAR AREAS
- PROFESSIONAL SPORTS TURF
- TEES AND FAIRWAYS
- SOD PRODUCTION
- LAWN AND LANDSCAPE
- HOME LAWNS
- TOP-QUALITY OVERSEEDING FOR WARM-SEASON TURF

SNOW MOLD

Apple SGL exhibits increased resistance to snow mold This means a healthier turf all year long.

2011 NTEP Pink Snow Mold Rating

GENETIC COLOR

Apple SGL is very dark green making it ideal for golf course and sports turf use.

2012 NTEP Mean Color Rating

SEEDING AND OVERSEEDING Apple SGL readily establishes on loosened bare soil or after verticutting existing turf for renovation and overseeding. For typical new seeding applications, apply at a rate of 5-7 lbs. per 1000 sq. ft. Periodic reseeding at 3-5 lbs. per 1000 sq. ft. maintains density for visual appearance and durability. For overseeding dormant warm season grasses, a rate of 30-40 lbs. per 1000 sq. ft. is suggested for golf course greens. And 7-10 lbs. per 1000 sq. ft. (300-450 lbs. per acre) for tees, fairways and roughs.

MAINTENANCE Apple SGL will form a tight knit turf under a broad range of soil types and environmental conditions, from full sun to medium shade. It will mow cleanly at heights of 1/2" and above. Due to its tillering ability and compact profile Apple SGL can be maintained at fairway cutting heights when appropriate management practices are observed.
