

SPORTS & TURF

2023 PRODUCT INFORMATION

The Tessman Company has been operating in the Twin Cities area under several owners since 1950.

We are proud to be celebrating our 73rd year in business!

In 1995, John Timberg purchased Tessman from Hawkins Corporation and started the transformation from retail garden products to professional turf, golf course, landscape, and greenhouse sales. The Tessman Company strives to provide the best customer service to our customers in the Upper Midwest. In 2001, Terry Reiten was added to the team and became an owner shortly thereafter. The company is still owned locally by the Timberg and Reiten families, and helps support over 30 families in Minnesota, North Dakota, and South Dakota.

The image features a yellow map of the Upper Midwest region, specifically highlighting North Dakota, South Dakota, and Minnesota. Three location pins are placed on the map: one in Fargo, ND; one in Tea, SD; and one in St. Paul, MN. To the left of the map is the Tessman Company logo, which is circular with a sunburst design and the text "Your Supplier For Growth" at the top, "THE TESSMAN COMPANY" in the center, and "Since 1950" at the bottom. Below the logo is a pair of worn, brown leather work gloves. The text "WAREHOUSE LOCATIONS" is written in a bold, sans-serif font at the bottom right of the map area.

INFIELD CONDITIONERS

MVP

- The Perfect Utility Player
- MVP's Large particle size is excellent for incorporating into infield mix, topdressing to create a consistent and level playing surface, helping prevent rain outs, and improving native soil for turf renovations.
- Maintain a smooth, cushioned, playable surface for superior traction and player safety.
- Absorb excess moisture and improve drainage as a result of balanced air and water pore space.
- Fight infield compaction that leads to running, sliding and bad ball hop injuries.
- Ideal for new infield construction or renovation.

Pro League Elite

- The Industry's Best Field Conditioner.
- Create a professional playing surface with the highly durable infield conditioner preferred by most groundskeepers.
- Turface Pro League Elite delivers exceptional performance and a more dependable fielding and sliding experience at every level of play.
- Available in Four Colors, Heritage Red, Natural, Red and Champion Brown.

Quick Dry

- Save the Game from the Rain!
- The fine particles of Turface Quick Dry make it the perfect choice for quickly clearing up puddles and mud on skinned infields. Just dump and rake to make your infield safe and playable.
- Absorbs its weight in water.
- Quick Dry won't harden or cake.

FIELD & FAIRWAY

- For quick fixes and long-lasting turf health.
- Field & Fairway's uniform particle size makes it perfect for new field construction, topdressing and infilling aerated fields.
- Ideal for heavy traffic areas near goals on Soccer fields.
- Holds air, water and nutrients at the root zone.
- Reduces compaction and improves water drainage.
- Ideal for Soccer field goal areas as it improves traction when applied to muddy, damaged areas or turf.

TurfMend

- Professional grass turf repair product.
- A combination of granulated compost and sun/shade grass seed.
- Available in 35lb bags.
- Great for small fixes and patches.
- Apply to thin turf areas.
- No on-site mixing or bulk compost loads needed.
- Quick application turf repair.

PennMulch

- PennMulch is a pelleted seeding mulch uniquely formulated to include starter fertilizer (equivalent of 10-20-5) to support quick grass seed germination to establish new or repaired turf.
- Stores moisture for successful germination.
- Hydrobond™ tackifier holds seed in place for consistent establishment.
- Unlike straw, PennMulch contains no weed seeds and breaks down overtime requiring no raking.

MOUND & BOX PACKING CLAYS

5-Star Packing Clay

- Competitively priced, Turface 5-Star is a premium mound and plate clay that stands up to high levels of wear and traffic. A high-density red clay with a high silt content, Turface 5-Star comes premoistened and ready to use – just open the bag and pour!
- Clay-silt mixture bonds quickly and packs tightly to help streamline installation.
- Highly durable, long-lasting performance and wear resistance.
- A good fit across different geographies and climates, suitable for all levels of play.
- Available in bulk truckloads, 50lb bags or 2000lb super sacks.

Mound Clay

- Professional Mound Clay is finely engineered to the highest specifications.
- 100% high-density pure virgin clay delivers long-lasting performance.
- Shredded material is ideal for shaping mounds.
- Pliable construction makes it easy to mold.
- Red is durable and possesses a high level of plasticity .
- Gumbo Gray possesses a high level of tackiness: enhances bonding strength.

Mound Master Blocks

- No two areas of the diamond receive more abuse and constant wear than the pitcher's mound and the batter's and catcher's boxes.
- 100% pure virgin clay blocks deliver long-lasting performance.
- Blocks are sized perfectly for building boxes and the mound from the ground up.
- Packaged as 8 block sets in water tight bags to retain proper moisture.
- Pliable construction makes it easy to mold into just the right form.
- Blocks are 2 ½" x 4" x 8"

CHALK & MARKING PAINT

Proline

- ProLine Athletic Field Marker is a specially formulated blend of finely crushed white calcium carbonate. It's ideal wherever lines must be highly visible.
- Bright white color
- Easy flowing for consistent coverage.
- Non-caking, non-caustic, and non-irritating to eyes and skin.
- Complies with NCAA and NSFH official rules and Official Little League handbook regulations.

Hirshfield's

QUALITY PAINTS & COATINGS

SEYMOUR

SINCE 1949

Athletic Field Marketing Paints

- Non-toxic, water-based coating designed for various sporting field applications.
- It is available in bright white and yellow.
- Will not harm the grass or burn the eyes during application as other common line striping product will.

Stripe Golf and Turf Marker

- A fast drying marking paint that is safe on grass, lead free and VOC compliant.
- Can be used by hand or with a Marking Wand or Marking Gun.
- It has a water base formulation, it is not water soluble and will not wash away during rain or irrigation.
- Available in white, blue, red, green, and orange.
- 17 oz Container

Stripe Athletic Field Marker

- A long lasting athletic field paint that makes sharp, well defined stripes in one application.
- Dries in 15 minutes.
- VOC compliant and safe for grass.
- One can will stripe approximately 300 linear feet @ 4" wide.
- Available in white, blue, red, yellow, and orange.
- 18 oz Container

Ground Marking Wand

- Long Handled Ground Stripe Marking Wand.
- Use with a variety of Seymour Stripe inverted tip marking paints.
- Lightweight tool, ideal for a wide range of precise marking applications.

Marking Gun

- Compact and lightweight Marking Gun.
- Ideal for freehand marking with any Stripe traffic or inverted tip cans.

FIELD POWDER EQUIPMENT

All-Steel Dry Line Marker - 100lb

- All steel applicator with galvanized steel bucket powder coated green.
- Adjustable to 2" to 4" chalk lines.
- Guide stripe on lid for easier application.
- 4 heavy-duty pneumatic wheels.
- Steel axle, ABS plastic agitator.

All-Steel Dry Line Marker - 50lb

- All steel applicator with galvanized steel bucket powder coated green.
- Galvanized steel with green powder coated finish.
- Galvanized steel axle and dispensing wheel.
- White guide stripe on lid for proper alignment.
- 4 heavy-duty hard tires.
- Hand lever is adjustable for 2" or 4" chalk lines.

All-Steel Dry Line Marker - 35lb

- All steel applicator with galvanized steel bucket powder coated green.
- All steel unit with galvanized steel bucket.
- Adjustable to 2" – 4" chalk lines.
- Guide stripe on lid for easier application.
- 2 heavy duty wheels, steel axle, ABS plastic agitator.

INDICATORS, MARKERS & COLORANTS

Solarous

- Solarous fuses a blend of chromatic reflective ingredients and innovative surfactant systems to increase coverage and adhesion on the plant. As a chromatic plant enhancer, it combines these unique ingredients to give your surfaces a distinct appearance and protect turf health by reflecting UV radiation.
- Highly concentrated surfactant system increases coverage on the leaf surface and improves mixing and handling.
- Unique green color ties in well with natural turf appearance.

Super Signal Blue

- Highly visible blue spray pattern indicator provides temporary visibility of applications. Waterproof, foil-lined SoluPak prevents accidental staining.
- Optimizes spray accuracy
- Temporary color dissipates with moisture or sunlight.
- Nontoxic

Runway

- Turf Marking Foam
- High Visibility foam for 20 minutes.
- Dissipates to less than 1% of original volume in 45 minutes.
- Safe on sensitive grasses
- Will not discolor turf

MAINTENANCE PRODUCTS

Erase

- Spray System Cleaner
- Advances surfactant system that penetrates and removes dried on residues left behind from incompatible tank mixes.
- Emulsifier technology designed to solubilize oily residue build-up for easier purging of the system.
- Anti-corrosion inhibitors to protect equipment pumps, seals and plumbing.

Knockdown

- Foam suppressant quickly defoams spray solutions containing nonionic surfactants, silicone surfactants or crop oil concentrates.
- Prevents foam spillover.
- General purpose antifoamer and defoamer.

SOIL SURFACTANTS

MagnaPlex

- Hydration and Infiltration, easy-to-use formulation that does not require immediate post-application irrigation.

Precip

- Precip is a water conservation soil surfactant balancing performance with affordability.
- Increased water infiltration to optimize irrigation and rain inputs.
- Longer hydration for water and labor savings over time.
- Affordable cost for expanded use over large acreage.

In-Flow

- In-Flow is a granular soil conditioner and surfactant that influences water's ability to flow into and throughout the profile of infield skins.
- Find the desired balance between water retention and movement, resulting in a better performing infield over a long period of time.
- Maintain moisture levels for longer.
- Improve profile structure.
- Use less water to get optimal playing conditions.

Active

- A unique activator adjuvant formulated with green pigment to optimize pesticide performance and turfgrass appearance.
- Active is ideal for large acreage use with fungicides and plant growth regulators.
- Synergistic effect between pigment and activator adjuvant.
- Flexible rates for season long use.
- Green pigment blends well with natural turfgrass color.

Border 2.0

- Concentrated liquid adjuvant for spray droplet management.
- Enhances the performance of spray applications by modifying the physical characteristics of the spray droplet, improving droplet retention while reducing off-target movement.
- Reduces drift
- Performs across a wide range of nozzle types.

LV

- Water Conditioning Agent, Surfactant and Humectant.
- LV is specifically formulated for low volume sprayer applications.
- Water conditioners block hard water cations and reduce pH to protect integrity of the spray solution.
- Non-ionic surfactant improves coverage of the spray droplet to enhance uptake.

Chem-Stik

- Non-ionic spreader sticker maximizes leaf surface coverage of spray solutions, while providing wash-off protection from untimely rainfall.
- Increases wetting, adhesion and endurance of pesticide sprays.
- Won't gum up sprayers
- Low-use rate.
